## COLLECTIBLES

### LANG

---

When you can't go to Williamsburg, bring Williamsburg to you! Thanks to a wonderful collaboration between WILLIAMSBURG and The Lang Companies, you can collect miniature replicas of Colonial Williamsburg buildings and accessorize them with colonists, animals, coaches, and more. With meticulous and loving detail, each house is carefully articulated, each face alive with feeling, each animal only momentarily at rest. Our lighted Williamsburg village gives you the rare chance to create the world as you wish it to be.

Each house, store, tavern, and municipal structure we replicate is selected for a special quality—beautiful architecture, historical importance, interesting story. WILLIAMSBURG then provides Lang with photos and specs of the building, including paint colors and elevations to ensure proper proportions. Next, Lang sends a clay prototype to WILLIAMSBURG product developers, who check every detail for accuracy, from the number of window panes to the slope of the roof. Finally, the porcelain building is created and individually hand-painted in painstaking detail, brick by brick. This fine craftsmanship, distinctive artistry, and signature American theme have become the essence of Lang since its establishment in 1982.
